

Bushenyi

- Bushenyi is in Western Uganda on the road from Mbarara to Kasese and near to the bigger town of Ishaka, where there is a big University. The Church is very near the main road, just before the town so easy to get there.

We have been blessed going to a church there on our last 2 visits to the west and are grateful to the pastor and members for their welcome and fellowship

Beautiful building as you can see, with one photo before many arrived.

A work of God there in which we rejoice
