

# Manafa

- Manafa is south of Mbale and quite near the Kenyan Border and north of Tororo. Some visits are only roughly near the area and some near the Manafa River

In one church a young man who was badly damaged mentally was completely healed. Some photos are included from 4 square churches which we have visited just off the Mbale to Tororo road where Edward's former teacher works in the churches there a was the head teacher at a primary school which catered wonderfully for deaf children
