

Mutukula

Mutukula is the border town into Tanzania going south from Masaka through Kalisizo and Kyotera .It is quite a remote place with Tanzania on one side of the road and Uganda on the other. Ww have visited a number of times, in spite of the bad road. One time was for 5 days to have pastors seminars when pastors from Tanzania came. Sam Wasabi is the pastor and works so hard in such a place to bring the gospel to the town. Here we saw the amazing healing of the almost dead child Alice. She is in the yellow dress and if you touch or click the photo you can read the testimony. One time Sam took is to an even more remote church , the 2 photos on the left at the bottom, and through wet lands and not sure which country we were in.

We found God's people looking to Him and worshipping Almighty God. God has His people Everywhere. Many thanks Sam Wasabi
